

Left Wing Of Smaug (5.7) on Far Downs in Middle Earth at Custer State Park

Repair work done by Ron Yahne, Becky Wagner, and Jason McNabb on 7/10/11

Left Wing of Smaug had anchors that were installed during a Coalition group workday a few years back that worked well as a rappel anchor, but did not work well as a belay anchor. We moved the anchor up higher and pulled and patched the old anchor. The new anchor now works very well as both a belay anchor and a rappel anchor.

BHCC Stainless Hardware Installed:

Fixe Triplex Bolts (x2)

Petzl Coeur Hanger (x1)

Fixe Top Hanger (x1)

7mm stainless quick links (x3)
