

Raisins in the Sun 5.11 Monster Area Mount Rushmore

August 6th, 2013

Rich Barry and Jason McNabb

Raisins in the Sun is a high quality 5.11 that had been partially repaired a few years back with solid 3/8" bolts and modern hangers. We replaced the anchors and the first two bolts on the route that were still the old 1/4" self drill bolts. We pulled and patched the old hardware and torque tested the bolts that had already been replaced.

Previous Hardware:

Bolts

¼" self drill bolts (x2)

Homemade angle iron hangers (x2)

Anchor

¼" self drill bolts (x2)

Homemade angle iron hangers (x2)

Non stainless chain and lap link

½" cold shut

½" plated wedge bolt

BHCC hardware installed

Bolts

Fixe Triplex Bolt (x2)
